MISCELLANEOUS PURPOSES LICENCE: APPLICATION

APPENDIX A: MINING LEASE AND MISCELLANEOUS PURPOSES LICENCE ASSESSMENT FEE

i The following information is provided as a guide only.

MINERAL LEASE AND MISCELLANEOUS PURPOSES LICENCE APPLICATIONS:

The calculation of the assessment fee for a Mineral Lease and a Miscellaneous Purposes Licence application is now based on the *capital cost* and location of the proposed lease and/or licence. *Capital cost* has been defined in the Regulations to provide clarity on what costs applicants are required to consider when calculating and declaring the total *capital cost*. It only includes costs incurred or reasonably expected to be incurred prior to operations commencing.

Applicants who require a combination of several mining tenements for a single project, i.e. a combination of a Mineral Lease and one or more Miscellaneous Purposes Licences, should discuss this requirement with the Department prior to submitting their applications. Applicants will be encouraged to submit a consolidated package of applications as the Department has the discretion to waive multiple assessment fees ensuring the total cost of the fee is capped and commensurate with the complexity of the applications.

Mining Regulations 2011 – regulation 3 – Interpretation capital cost means—

- (a) in relation to a mining lease, the aggregate of the costs incurred or reasonably expected to be incurred before operations constituting the mining or recovery of minerals commence under the lease; or
- (b) in relation to a miscellaneous purposes licence, the aggregate of the capital costs incurred or reasonably expected to be incurred under or in connection with the licence, including costs associated with any of the following:
 - (c) engineering, planning or design work;
 - (d) works associated with open pit development or underground working development;
 - (e) constructing or installing infrastructure for the operations including—
 - (i) pit and underground infrastructure; and
 - (ii) fixed plant; and
 - (iii) rock and tailings waste storage facilities; and
 - (iv) buildings, powerlines, bores and roads;
 - (f) constructing or installing structures, or undertaking earthworks, to prevent, or limit, damage to or impairment of, the environment by the operations;
 - (g) measures associated with the assessment, management, limitation and remediation of the environmental impacts of the operations;
 - (h) making provision for contingencies, excluding any costs incurred or reasonably expected to be incurred in acquiring land or constructing or installing infrastructure outside the area of the mining lease or miscellaneous purposes licence (as the case may be).

CAPITAL COST DECLARATION AND CALCULATION:

An applicant for a Mineral Lease and/or a Miscellaneous Purposes Licence is now required to declare the *capital cost* of the proposed project on the application form (see Calculation of Fees Payable).

The Applicant is required to provide specific information to support the *capital cost* declaration as an attachment to the application. The Department will assess the information provided with the application to ensure it meets the requirements of the Mining Regulations and that it is consistent with any public information.

Please refer to the examples below of the information that may be provided to support a *capital cost* calculation:

ASSESSMENT FEE PAYABLE:**Capital Cost less than \$1,000,000**

For a Mineral Lease and/or Miscellaneous Purposes Licence application where the expected *capital cost* is less than \$1,000,000 the assessment fee is as per Schedule of Fees.

Capital Cost more than \$1,000,000

For a Mineral Lease and/or Miscellaneous Purposes Licence application where the expected capital cost is more than \$1,000,000 the assessment fee varies depending on where the proposed project is to be located and the expected *capital cost*. The assessment fee is calculated as a percentage of the expected *capital cost* up to a maximum capped fee of \$200,000*.

The percentage payable is dependent on the location of the proposed lease or licence. Where a proposed project is outside the area of a council and outside the area of a reserve (within the meaning of the [National Parks and Wildlife Act 1972](#)), the fee is calculated as **0.125%*** of the expected *capital cost*. Please refer to Example 4.

Where a proposed project is within the area of a council or a reserve, the fee is calculated at **0.25%*** of the expected *capital cost*. Please refer to Example 5.

Example 4 – Assessment fee for Mineral Lease and/or Miscellaneous Purposes Licence Application outside the area of a council and outside the area of a reserve:

For an application where the location of the proposed project is outside the area of a council and is also outside a reserve the assessment fee is calculated at **0.125%*** of the *expected capital cost* up to a maximum capped fee of \$200,000*.

Capital Cost	Percentage of Capital Cost*	Calculated Assessment Fee	Set Assessment Fee
<\$1,000,000			\$1,000
\$2,000,000	0.125%	\$2,500

*Percentage of Capital Cost correct as at 19 January 2015

Example 5 – Assessment fee for Mineral Lease and/or Miscellaneous Purposes Licence Application within the area of a council or within the area of a reserve:

For an application where the whole or any part of the proposed project is *within the area of a council* or *within a reserve* the assessment fee is calculated at **0.25%*** of the expected *capital cost* up to a maximum capped fee of \$200,000*.
